C, C++, C#, Objective-C, Swift, Java, Kotlin, JavaScript, PHP, Bash

Other Tech Stack
CoreData, Realm, Nginx, PostgreSQL, Redis, Slim, Laravel, Qt, Amazon Web Services, Google Cloud Platform

Professional experience

Dolphin and Mermaids (Freelance)
Developer, Product Designer, 1/2013 – Present

Design and develop mobile, desktop, and web applications.
Recent Projects:
Moods moods.md
Developed and designed an iOS mobile application that helps people to better understand their mood changes, keep their personal diary, and be closer with beloved ones. Developed both front end and back end of the application. Implemented features like attaching photos, videos, and audio recordings, viewing mood changes on calendar, map, and graph.
Kruzo kruzo.io
Developed an iOS and Android mobile applications for anonymous messaging that makes people's life brighter all around the world. Integrated GameKit framework with achievements and leaderboards.
Sprites #sprites
Developed a macOS app that helps web designers and game developers with creating sprite atlases, animations, and scenes for web sites and games. Implemented a powerful Python powered template engine, sprite font export, and easy to use animation editing built-in tool.
Cal Marker marktheday.today
Developed and designed an iOS mobile application for tracking continuous life events with ability to view marks from multiple calendars simultaneously. Implemented sharing of picture with current progress feature and smart reminders.

Vzljot CJSC
Advertising Manager, 7/2008 – 1/2013.

Managed acute and long-term key advertising internet marketing campaigns. Other duties included managing the development of company website and intranet services.
Increased client market shares and web presence of the company.
Redesigned intranet systems to gather data more efficiently and speed up customer service response times.
Managed the development of a system that tracked and monitored work performed by installed devices and helped with real-time troubleshooting assistance in the events of technical issues.

Education and Certification

Bachelor Degree in Humanities Faculty of Advertising, Concentration in Marketing, Moscow University of Humanities.
Google Certified Associate Android Developer, 2016.
